OJAI VALLEY SCHOOL

2026-2027

Music Lesson Agreement

As part of our Performing Arts program, OVS offers private music instruction after school. Students should have their own in instrument in hand for lessons. Weekly classes will take place on campus and are scheduled with professional music teachers who live in the local community. Please complete and return this agreement form directly to ovs@ovs.org prior to the start of school:

There are two billings per school year and a student is signed up for the entire school year, unless the parent or guardian notifies in writing the Performing Arts Department. Lessons will be billed to the student's sundry account.

I understand that the school has made arrangements with the music instructor and, therefore, a solid commitment (which includes practicing, showing up on time, etc.) must be made by the student.

I agree to pay for after-school music lessons for the above student at Ojai Valley School. I understand that each lesson is 30 minutes long and the charge is $800.00 per semester. If a student does not attend a music lesson and no previous arrangements have been made, the student's sundry account will continue to be billed.
